

Docket Number 06-SPPE-2
First Round Data Requests
El Centro Unit 3 Repower Project
July 2006

DATA REQUEST #10
PUBLIC HEALTH

BACKGROUND

It is unclear if there are any existing back-up diesel generators or fire pumps at the Project Site. Both of these types of sources would generate diesel exhaust in the form of diesel particulate emissions, which should be assessed for cancer risk in the risk assessment and cumulative risk assessment.

DATA REQUEST

10. Please provide information on any back-up diesel generators or fire pumps proposed for the project site, including estimated emissions and health risks.

DATA RESPONSE

The Applicant received notice on June 22, 2006, from the CEC that Data Request #10 was rescinded and therefore, no further information is required.
